

RED TEMATICA DE QUÍMICA SUPRAMOLECULAR

San Diego, CA, 08/10/2017

To
Technical Academic Committee
Thematic Network in Supramolecular Chemistry

Comité Técnico Académico
Red Temática de Química Supramolecular

I would like to be registered as a research member of the Thematic Network in Supramolecular Chemistry (la Red Temática de Química Supramolecular), project No. 281251, to participate in joint research with Dr. Anatoly Yatsimirsky, which will involve study of catalytic properties of some Metal Organic Frameworks in hydrolysis of phosphate esters of biological and environmental importance.

I am presently a Professor in the Department of Chemistry and Biochemistry at U.C. San Diego carrying out the research work in areas of Metal Organic Frameworks and metalloprotein inhibitors. My CV is attached.

Are you a member of another Thematic Network of CONACyT? Yes No

Which one? _____.

Sincerely

A handwritten signature in black ink, appearing to read "Seth M. Cohen", with a long horizontal flourish extending to the right.
